Backend & Database: **Next.js API Routes**, RESTful APIs, **NextAuth**, **MongoDB**, NodeMailer, **JWT**, **Cloudinary**

Programming Languages: Python, C++

Tools & Design: Git, GitHub, Figma, Photoshop, Illustrator

WORK EXPERIENCE

Freelance Web Developer | Jan 2025 – Present

- Delivered responsive, client-focused websites using React, Next.js, MongoDB, TypeScript, and Tailwind.
- Collaborated with clients to build feature-rich solutions, improving performance by 23%.
- Founded freelancing agency 'Scrupulous', completing 8+ projects for clients across eCommerce, portfolio, and business websites (project sizes ranging from small landing pages to full-scale platforms).
- Coordinated with clients remotely, applying Agile methods to ensure on-time delivery and client satisfaction.
- Leveraged strong communication skills to translate business requirements into technical solutions.

Frontend Intern | Code Sentinel | Remote | Jul 2025 – Aug 2025

- Developed a Coffee Shop Landing Page and To-Do App (React, Redux, Tailwind, AOS), reducing bounce rate by 20%.
- Built a Quiz Page (HTML5, CSS3), boosting mobile accessibility by 30%.
- Optimized UI components, reducing load time and improving user retention.

Frontend Intern | Code Alpha | Remote | Feb 2025 – Mar 2025

- Built interactive apps (Calculator, 3D Gallery, Music Player) with JavaScript.
- Enhanced cross-browser performance, accessibility, and responsive UI.

PROJECTS

ZayphireStore (Clothing E-Commerce)

- Full-stack eCommerce platform using Next.js, MongoDB, TypeScript, Tailwind, and Cloudinary.
- Built admin panel with product upload and order management features.
- Achieved 100/100 Lighthouse score (Performance, SEO, Best Practices, Accessibility).

Iqzaibessence (Hair Oil E-Commerce Website)

- Designed and developed a full-stack eCommerce platform for a natural hair oil brand using Next.js, MongoDB, Tailwind CSS, and Cloudinary.
- Focused on creating a high-performance, SEO-optimized, and mobile-friendly website that delivers a smooth user experience.
- Implemented a secure checkout process, admin dashboard for managing products and orders, and Cloudinary integration for optimized image uploads.
- Significantly improved the site's performance metrics, achieving 99 Performance, 100 SEO, 100 Accessibility, and 96 Best Practices on Google Lighthouse.
- Enhanced brand identity through a modern, clean UI/UX design and conversion-focused layout to boost sales and user engagement.

Hafsons UK – Real Estate Website Rebuild

- Rebuilt and optimized the official website for Hafsons UK, a London-based real estate company, using Next.js, Typescript, and Tailwind CSS.
- Revamped the site's design and structure to improve user experience, SEO, and overall performance.
- Boosted Google Lighthouse scores from **39 to 99 in Performance** and achieved **100 in SEO, Accessibility, and Best Practices**, while improving **page load speed by 55% (now under 0.5s)**.
- Implemented clean, semantic code, responsive layouts, and best optimization practices for faster load times and higher search visibility.
- Delivered a modern, professional, and fully responsive website aligned with the client's business goals and brand identity.

Cryptoverse (Real-Time Crypto)

- React + Redux Toolkit app displaying real-time cryptocurrency data from multiple APIs.
- Integrated market statistics, charts, and live news feeds with search and filtering.
